

Lawan Kumar Bairi

Full Stack Developer

Jangaon, Telangana | 9959614286 | lawan.bairi@gmail.com
linkedin.com/in/lawangoud | github.com/LawanGoud

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using React.js, Node.js, and Python. Strong understanding of REST APIs, client-server architecture, and state management. Experienced in implementing real-world application logic including cart systems, JWT authentication, and data persistence. Passionate about building efficient, user-friendly applications with modern web technologies.

SKILLS

Languages: Python, JavaScript

Frontend: HTML, CSS, Bootstrap, React.js

Backend: Node.js, Express.js

Databases: SQLite, SQL

Concepts: REST APIs, Context API, JWT Authentication, Client-Server Architecture, LocalStorage, Responsive Design

PROJECTS

FoodieExpress – Food Delivery Web App

Live: foodie-express-alpha.vercel.app

Code: github.com/LawanGoud/foodie-express

- Built a responsive food delivery app with category filtering, cart management, and order summary flow
- Implemented JWT-style login and protected routes using React Router DOM
- Designed cart with add/remove items, quantity controls, and real-time cart count in the header
- Used Context API for global state management across components
- Integrated REST APIs for dynamic menu data fetching
- Deployed on Vercel with clean responsive UI using a green/white card-based theme

Tech: React.js, JavaScript, CSS, Context API, REST API, React Router DOM

E-Commerce Web Application (NxtWave Clone)

Live: nxtwave-e-commerce.vercel.app

Code: github.com/LawanGoud/nxtwave-e-commerce

- Developed a responsive e-commerce app with product listing, filtering, and detailed product pages
- Implemented advanced cart management including add/remove items, quantity updates, and duplicate item merging
- Designed cart persistence using localStorage to retain data across browser sessions
- Used Context API for global state management and REST APIs for dynamic product data
- Added real-time UI updates such as cart count display and toast notifications

Tech: React.js, JavaScript, CSS, Bootstrap, Context API, REST API

GitHub Repositories Explorer

- Built a responsive app to fetch and display GitHub repositories dynamically using REST APIs
- Implemented language-based filtering for efficient repository browsing

Tech: React.js, REST APIs, JavaScript, CSS

Wikipedia Search Application

- Developed a search app with dynamic API-based results and asynchronous data fetching
- Designed responsive UI for accessible search experience across devices

Tech: HTML, CSS, JavaScript, REST APIs

EDUCATION

B.Tech – Electronics & Communication Engineering

Malla Reddy College of Engineering & Technology | 2016 – 2021

Diploma – Electronics & Communication Engineering

Govt Polytechnic College, Siddipet | 2013 – 2016

CERTIFICATION

Industry Ready Certification in Full Stack Development – NxtWave (Ongoing)
